

WINTER & COOLING SYSTEM PRODUCTS

WINDSHIELD WASHER ANTI-FREEZE CONC.

Permits all types of windshield washers to work at below zero temperatures without freezing. (1 to 1 treat ratio is -46°F)

- 5016 24/cs. Net Cont. 16 fl. oz.
- 5001 6/cs. Net Cont. 1 gal.
- 5005 1/cs. Net Cont. 5 gal.
- 5055 1/cs. Net Cont. 55 gal.

NOX-ICE

Removes water and ends gas line freezing. Mixes thoroughly with all types of diesel, gasolines, and gasohols. (12 fl. oz. treats up to 25 gals. of fuel)

- 5112 24/cs. Net Cont. 12 fl. oz.
- 5105 1/cs. Net Cont. 5 gal.
- 5155 1/cs. Net Cont. 55 gal.

WINDSHIELD SPRAY DE-ICER

Defrosts and melts ice from windshields, headlights, and windows. Thaws locks in extreme cold weather.

- 5216 12/cs. Net Wt. 12.3 oz.

HEAVY DUTY STARTING FLUID

For use in gasoline or diesel engines. Also provides upper cylinder lubrication.

- 5315 12/cs. Net Wt. 10. oz.

AIR BRAKE ANTI-FREEZE

Use in air brake system reservoir for complete winter protection. Absorbs moisture due to condensation and protects entire air brake system from corrosion. (Fill evaporator jar 2/3 full)

- 5632 12/cs. Net Cont. 32 fl. oz.
- 5601 6/cs. Net Cont. 1 gal.
- 5655 1/cs. Net Cont. 55 gal.

COOL TEC 2

Eliminates corrosion, scale build-up, and retards the formation of solder bloom. Rebuilds and maintains pH levels in recycled coolant. Compatible with all types of anti-freeze. (12 fl. oz. treats up to 12 qt. cooling system capacity)

- 1112 12/cs. Net Cont. 12 fl. oz.
- 1105 1/cs. Net Cont. 5 gal.
- 1155 1/cs. Net Cont. 55 gal.

COOL PREP

Removes, dissolves or disperses scale, corrosion, silica gel, sludge, and light oil contamination. (32 fl. oz. treats up to 16 qt. cooling system capacity) 1232 12/cs. Net Cont. 32 fl. oz.

COOLING SYSTEM SEALER

Repairs cracked engine blocks, valve ports, water jackets, leaky radiators, and head gaskets. Sealer remains in solution to prevent new leaks. (10 fl. oz. treats up to 30 qt. cooling system capacity) 1416 12/cs. Net Cont. 10 fl. oz.

DIESEL COOLING SYSTEM TREATMENT

Complete inhibitor package designed exclusively for use in diesel cooling systems. Protects all metals, helps stabilize coolant, and helps prevent cavitation erosion /corrosion. (12 fl. oz. treats up to 12 qt. cooling system capacity) 1816 12/cs. Net Cont. 12 fl. oz. 1805 1/cs. Net Cont. 5 gal. 1855 1/cs. Net Cont. 55 gal.

DIESEL FLO

Winter diesel fuel treatment helps prevent fuel gelling/waxing with a pour point depressant/wax crystal modifier. (16 fl. oz. treats 125 gallons of fuel) 3716 12/cs. Net Cont. 16 fl. oz. 3705 1/cs. Net Cont. 5 gal.

DIESEL FLO SPECIAL BLEND

Dissolves already gelled fuel fast. Prevents ice crystal build-up in fuel lines and filters. (32 fl. oz. treats up to 25 gal. of fuel) 3732 12/cs. Net Cont. 32 fl. oz. 3755 1/cs. Net Cont. 55 gal.

WINTER POW-R PLUS® ADDI-PAK™

Prevents fuel gelling, waxing, and icing. Improves cold weather starting. Disperses water. Keeps injectors clean (treats 125 gal. of fuel) 2020 AP 24/cs. Net Cont. 5 fl. oz.

COOLTRAK® AUTOMOTIVE COOLANT TEST STRIPS

Determines an engine's protection against freeze-up, boil over and acid corrosion. 2038 12/cs. Net Cont. 50 test strips
